About Us

Three major cement companies in Saudi Arabia established the Cement Product Industry in 1972.

- Saudi Cement Company
- Yamama Cement Company
- Arabian Cement Company

CPI has expanded its operations since its inception to become one of the leading manufacturers of cement bags, building materials, construction chemicals, and food in the Middle East.

Our Vision

It is to be the leader in supplying Kraft Paper Bags and to make a benchmark for all services provided to our customers.

Our Mission

To be fully committed to quality, quick response to inquiries, and production of adequate reserves to meet and exceed clients' expectations.

Our History

- In 1972, the company began production in the city of Jeddah - Heraa Street.
- In 2001, the company moved to the first industrial city in Jeddah.
- In 2005, the production capacity reached 120 million bags per year.
- In 2009, production began at the company's branch in Riyadh, bringing the total production capacity to 180 million bags per year.
- In 2014, the production capacity reached 320 million bags per year.
- In 2017, the land was purchased for a new factory in King Abdullah Economic City with an area of 55,000 m
- In 2020, the construction of the new plant in King Abdullah Economic City was completed.
